Equine Services

Athens Veterinary Service, Inc.

Introduction

The Athens Veterinary Service, Inc. is proud to be one of the most complete mixed animal veterinary hospitals in North Central Wisconsin. We have been privileged to serve the area since 1985.

Since moving to our present site in 1994, the equine practice has grown to keep pace with the local horse population and the desire for quality equine veterinary medicine.

Our doctors and support staff welcome the opportunity and will take great pride in diagnosing, treating and caring for your horse.

Our Mission Statement

Our mission is to provide the best health care possible for each patient. We believe that client education and communication are integral to providing quality services, successful outcomes and overall client satisfaction.

Equine Services

Over the years we have introduced new products and offered new services to meet the growing needs of our clients. These services can be offered on farm or in the clinic. Our basic services include:

- Vaccination programs from the back yard horse to riding/boarding stables.
- Parasite management programs and deworming strategies.
- Coggins Testing & Health Certificates.
- Nutrition recommendations and ration formulation for any age, or medical condition.
- Barn/stall design.

We also provide more advanced services such as:

- Reproductive service for stallions and mares including:
 - ◊ Castlick Surgery.
 - ◊ AI Breeding.
(Fresh, cooled or frozen)
 - ◊ Embryo Transfer.
 - ◊ Semen Evaluation.
 - ◊ Semen Shipping.
 - ◊ Semen Freezing/Storage.
- Pre-purchase exams.
- Dental care with full mouth speculum and hand floats/tools or power dremels.

- Ophthalmic Exams.
- Lameness Evaluations.
- Corrective Trimming/Shoeing Consultations.
- Surgical services including:
 - ◊ Tooth Extractions.
 - ◊ Geldings/Cryptorchids.
 - ◊ Hernia & Wound Repair.
 - ◊ Leg & hoof surgeries.
 - ◊ Intensive Care for serious illnesses.
 - ◊ Colic Medical Management.

Utilizing our haul-in facility and other state of the art equipment, we can diagnose and treat conditions quickly and safely.

Equipment we have available to the doctors and your horse include the portable x-ray & ultrasound machines and blood & chemistry analyzers.

Our stalls are constructed to accommodate a mare and foal, administering IV fluids, and double as a surgery/recovery stalls.
